GREENBURGH-NORTH CASTLE UNION FREE SCHOOL DISTRICT

SUBJECT: DRUG FREE SCHOOLS

The Greenburgh North Castle Union Free School District believes that a comprehensive program to instruct students in the dangers of drugs and alcohol is necessary, and this Policy is adopted to serve that end.

The District will conduct annual building level activities to make students, staff and parents aware of the dangers of alcohol and substance abuse.

Beginning in the fall of each school year, each Building Principal will initiate planning, with staff, for the conduct of the year's substance abuse awareness effort.

Substance abuse awareness activities may include, but not be limited to: 7-12 curriculum development, in-service training, pre-service training, school-based prevention programs, family-based prevention programs, prevention programs targeted at students, athletes and coaches, counseling for students and parents including professional and peer counseling, school based early intervention programs, identification and referral for treatment and rehabilitation, leadership programs, identification of abusers and youth at risk, development and refinement of school policies governing substance abuse, community-based education regarding substance abuse, advisory council activities, and other such programs in keeping with the intent of this policy.
